Schnabel Engineering DC, Inc. is an affiliate of Schnabel Engineering, Inc.

Engineering services in the following states are performed by Schnabel's respective affiliated entity: Michigan: Schnabel Engineering of Michigan, Inc.; New York/Connecticut: Schnabel Engineering of New York; North Carolina: Schnabel Engineering South, P.C.

In the competitive environment of commercial ventures, the speed of project delivery and cost control are critical to success. Schnabel excels in meeting these demands by understanding the site challenges that can derail schedules and budgets, being able to navigate the regulatory process, and working with our clients to efficiently satisfy their business and project needs.

We serve as a valued project partner, whether securing a groundwater withdrawal permit, using advanced technology to address an underground problem, optimizing new foundation solutions, renovating a structure with little disruption to ongoing activities, providing GIS modeling to the client's executive management, or supporting a public meeting. On every project, we leverage our engineering expertise to help commercial and industrial clients achieve their business goals.
