Schnabel Engineering DC, Inc. is an affiliate of Schnabel Engineering, Inc.

Engineering services in the following states are performed by Schnabel's respective affiliated entity: Michigan: Schnabel Engineering of Michigan, Inc.; New York/Connecticut: Schnabel Engineering of New York; North Carolina: Schnabel Engineering South, P.C.

Supported by state-of-the-art analytical tools and active working relationships with water rights attorneys, regulatory personnel, and other water professionals, our water rights experts understand the complexity and challenges of navigating your projects.

Our expertise includes project management, design, and analysis of all phases of municipal and agricultural water supply systems and facilities, including:

- Water rights planning and analysis
- Changes of water rights
- Technical assistance in objections to water rights claims
- Preparation of water rights applications
- Expert witness testimony
- Determination of yields of water rights portfolios

Our experience also includes changes of water rights from agricultural to municipal uses including exchange and reuse; preparation of plans for augmentation; assistance in support of objections to water rights applications of others; and analysis of supplies and demands, including operations of water rights and reservoirs.
